Position: Renewable Energy Engineer / Solar PV Roof & Ground Mount Installer

Company: CleanEarth

Salary Range: Dependent on experience

Location: Various locations around the UK but based in Wadebridge, Cornwall

Duration: Full Time Contract

Closing date: 30th April 2022

Company background:

CleanEarth design, build, and operate Solar Photovoltaic (PV) and Wind Turbine renewable energy systems throughout the UK.

Founded in 2010, our industry-leading in-house team of engineers, planners and project managers provide a complete 360-degree service, incorporating every aspect of the project development process and ensuring CleanEarth are always one step ahead.

This unique approach allows CleanEarth to tackle every project head-on, with the in-house resources to provide a truly holistic service.

Job Description:

CleanEarth are looking for a motivated, organised Engineer to join our existing team.

Responsibilities will include:

- Carrying out planned and reactive maintenance on all asset managed renewable energy sites.
- Being part of and leading the PV installation team to install systems across the country, whilst upholding the highest quality and health and safety standards
- Identifying, responding to and rectifying faults, with a proactive approach to problem solving.
- Completing site analysis and monitoring reports.

Essential Requirements:

- Experience of solar PV installation/maintenance
- Driving licence.
- Excellent communication and organisational skills.
- Methodical, accurate and process focused approach to tasks.
- Flexibility for working throughout the UK, including evenings and weekends.

Desired Skills and Qualifications:

- Renewable energy industry knowledge and experience.
- SSSTS/SMSTS
- Roofing experience.
- Electrical experience.
- Telehandle, MEWP. CSCS card.
- Experience in communications set-up and configuration.

How to Apply: Please send a C.V. and covering letter outlining why you are suitable for the role to
