

Position Title: Site Manager (contract)
Company: CleanEarth Energy
Salary: £25phr (gross)
Location: St Austell, Cornwall
Duration: 27th April– 2nd October (approx)
Closing date: NA

Company background:

Clean Earth design, build, and operate Solar Photovoltaic (PV) and Wind Turbine renewable energy systems throughout the United Kingdom.

Founded in 2010, our industry-leading in-house team of engineers, planners and project managers provide a complete turnkey solution for landowners, SMEs and large corporates, incorporating every aspect of the project development process and ensuring Clean Earth are always one step ahead.

This unique approach allows Clean Earth to tackle every project head-on, with the in-house resources to provide a truly holistic service.

Job Description:

Clean Earth are looking for a motivated and organised Site Manager to oversee the delivery, erection and commissioning phases of our Imerys Wind Farm in Cornwall.

The role will vary from minimum 8 hour days, 5 days per week in the early project phase to 12 hour days, 6 days per week during the erection phase.

Responsibilities will include:

- Act as the Principal Contractor's on-site representative for the delivery, erection and commissioning of wind turbines within an active quarry environment.
- Take full responsibility for day-to-day site management, ensuring safe, compliant, and efficient delivery of works.
- Assist the Project Manager in planning, coordinating, and supervising all construction activities, including crane operations, turbine erection, electrical works, and commissioning phases.
- Interface closely with Turbine Supplier's supervisors, quarry site management, designers, and other contractors to manage interfaces and minimise disruption to quarry operations.
- Enforce Principal Contractor duties under CDM Regulations, including site inductions, RAMS approval, toolbox talks, and safe systems of work.
- Lead on health, safety and environmental management in a high-risk, live quarry environment, ensuring strict compliance with quarry site rules and permit systems.
- Manage site logistics, traffic management, lifting plans, and exclusion zones in coordination with quarry operations.
- Monitor programme, productivity, and quality, proactively identifying and resolving risks, constraints, and clashes.
- Attend daily coordination meetings and regular H&S briefings with Turbine Supplier and other subcontractors.
- Maintain site records, permits, inspections, and compliance documentation (including lift plans, LOLER, PUWER, and temporary works).
- Act as point of contact for client and stakeholders during delivery, erection and commissioning phases.
- Lead incident reporting, investigations, and implementation of corrective actions.
- Ensure commissioning activities are properly planned, sequenced, and safely integrated with ongoing Quarry operations.
- Support handover, snagging, and close-out documentation on completion of turbine commissioning.

Essential Requirements:

- SMSTS
- First Aid at Work

- Strong commitment to health and safety, and knowledge of H&S legislation as applicable to construction projects.
- Excellent communication and organisational skills.
- Proficiency with Excel.
- Working knowledge of 2D AutoCAD.
- Driving License.

Desired Skills and Qualifications:

- NEBOSH, IOSH, GWO.

How to Apply: Please send a C.V and covering letter outlining why you are suitable for the role to lisa.cook@cleaneartenergy.com
